BANK-E-MILLIE AFGHAN

INDEPENDENT AUDITOR'S REPORT ON FINANCIAL STATEMENTS TO THE SHAREHOLDERS OF BANK-E-MILLIE AFGHAN

Introduction

We have audited the financial statements of Bank-e-Millie Afghan (the Bank), which comprise the statement of financial position as at 21 December 2023, (30 Qaws 1402) and the statement of comprehensive income, the statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

Qualified Opinion

In our opinion, except for the effects of the matter described in the Basis for Qualified Opinion section of our report, the accompanying financial statements give a true and fair view of the financial position of the Bank as at 21 December 2023, (30 Qaws 1402) and of its financial performance and its cash flows for the year ended, in accordance with International Financial Reporting Standards (IFRSs) issued by the International Accounting Standards Board (IASB), the Law of Banking in Afghanistan and other laws and regulations issued by Da Afghanistan Bank.

Basis for Qualified Opinion

1. The Bank has investment in a wholly owned subsidiary "Afghan American Trading Co. Inc." (AATC) which is carried at a cost of USD 2.2 million (AFN 150.392 million). The Bank has not prepared the consolidated financial information in respect of its above subsidiary as required under International Financial Reporting Standard (IFRS) – 10 'Consolidated Financial Statements' due to lack of availability of financial information relating to the subsidiary. Further, for the reasons disclosed in note 8.1.1 to the financial statements, we have not been able to obtain sufficient and appropriate evidence regarding the existence and recoverability of the above referred investment.
2. Note 5.3.1 of the financial statements includes the balance of AFN 1,949,467,848 (USD 28,517,669), which we were unable to verify through confirmation or any other alternative audit procedures.

3. During the year, the bank has implemented Islamic core banking accounting module and made it live. The said migration has resulted in new balances at assets and liabilities sides of the balance sheet. The asset side amounts to Afn 213,533,898 while the liability sides amount to Afn 173,501,186, resulting in net difference of 40,032,712 on Murabaha loans and further the system shows the suspense account balance amounting to Afn 56,341,364, As shown in note 12.4 and 16.2 to the financial statements. During our audit we could not verify the completeness of the balances recorded under liability side of the balance sheet due to lack of accurate and reliable information from the system.

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Bank in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants that are relevant to our audit of the financial statements in Afghanistan and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

We draw attention to note 7.4 of the financial statements which shows that the bank has provided additional impairment allowance for loan and advances, as of 21 December 2023 that resulted in significant losses for the year.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRSs issued by the International Accounting Standards Board (IASB), the Law of Banking in Afghanistan and other laws and regulations issued by Da Afghanistan Bank, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Bank's financial reporting process.

Maz

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Bank to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during the audit.

Chief Financial Officer

Chairman BOS

BANK-E-MILLIE AFGHAN
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED ON 30 QAWS 1402 (21 DECEMBER 2023)

1 Status and nature of operations

Bank-e-Millie Afghan (the Bank) is domiciled in The Islamic Republic of Afghanistan. The Bank was incorporated in 1935 and it has been granted license for commercial banking by Da Afghanistan Bank (DAB) on 26 June 2004. The Bank also obtained a private investment license on 08 November 2004 under the Law of Domestic and Foreign Investment and is primarily engaged in the business of banking as mentioned in Law of Banking in Afghanistan. Ministry of Finance is the majority shareholder of the Bank having shareholding of 96.75%. The Bank has 39 branches (2022:39 branches) in operation.

The registered office of the Bank is at Pashtanistan Square, Kabul, Afghanistan.

2 Basis of preparation

2.1 Statement of compliance

These financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) issued by the International Accounting Standard Board (IASB) and the Law of Banking in Afghanistan and the directives issued by DAB. Whenever the requirement of the Law of Banking in Afghanistan differs with the requirements of the IFRS, the requirement of the Law of Banking in Afghanistan takes precedence.

Bank-e-Millie Afghan holds one wholly owned subsidiaries namely 'Afghan American Trading Co. Inc.'. As per International Financial Reporting Standard (IFRS) 10 'Consolidated Financial Statements', being a parent, Bank-e-Millie Afghan is required to prepare consolidated financial statements, but the same cannot be prepared by the management, due to non-availability of latest audited financial statements of the subsidiaries for the reasons disclosed in note 'Long term investments'.

2.2 Mandatory Departure

Mandatory departure of International Financial reporting Standards (IFRS) - 9 "Financial Instruments", based on the decision of Da Afghanistan Bank until further notice.

2.3 Basis of measurement

The financial statements have been prepared on the historical cost basis except for investment property, land and building which are measured at revalued amount.

2.4 Functional and presentation currency

These financial statements are presented in Afghani, which is the Bank's functional currency. The amounts in the financial statements have been rounded to the nearest Afghani.

2.5 Use of estimates and judgments

The Bank makes estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial year. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The resulting accounting estimates and judgments will, by definition, rarely equal the related actual results. The material estimates, assumptions and judgments used to measure and classify the carrying amounts of assets and liabilities are outlined below:

a) **Provision for loan losses**

The Bank reviews loans and advances to customer balances monthly for possible impairment and records the provision for possible loan losses in accordance with DAB regulations as disclosed in note 7. The Bank maintains a general provision of 1% standard loans (2022: 1%) against outstanding loan and advances to customers as at the period end.

Mul

BANK-E-MILLIE AFGHAN
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED ON 30 QAWS 1402 (21 DECEMBER 2023)

b) **Provision for income taxes**

The Bank recognizes tax liability in accordance with the provisions of Income Tax Law 2009. The final tax liability is dependent on assessment by Ministry of Finance, Government of Islamic Republic of Afghanistan.

c) **Useful life of property and equipment and intangible assets**

The Bank reviews the useful life, depreciation method and residual value of property and equipment and intangible assets at each statement of financial position date. Any change in estimates may affect the carrying amounts of the respective items of property and equipment and intangible assets with a corresponding effect on the depreciation / amortization charge.

In particular, information about significant areas of estimation uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amount recognized in the financial statements are described below:

- a) Useful lives of property and equipment
- b) Impairment of loans and advances to customers
- c) Taxation
- d) Revaluation of the investment property and property plant and equipment
- e) Provision for retirement benefit

3 New accounting standards / amendments and IFRS interpretations

- 3.1** The Bank has not early adopted any new standards, interpretations or amendments that have been issued but are not yet effective in these financial statements. Other amendments and interpretations apply for the first time in 2023, but do not have an impact on the Bank's financial statements.

Mul

BANK-E-MILLIE AFGHAN
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED ON 30 QAWS 1402 (21 DECEMBER 2023)

4 Significant accounting policies

4.1 IFRS 16 Leases

IFRS 16 'Leases' replaces IAS 17 'Leases' along with three Interpretations (IFRIC 4 'Determining whether an Arrangement contains a Lease', SIC 15 'Operating Leases-Incentives' and SIC 27 'Evaluating the Substance of Transactions Involving the Legal Form of a Lease'). The adoption of this new Standard has resulted in recognition of a right-of-use asset and related lease liability in connection with all former operating leases except for those identified as low-value or having a remaining lease term of less than 12 months from the date of initial application.

For contracts in place at the date of initial application, the Bank has elected to apply the definition of a lease from IAS 17 and IFRIC 4 and has not applied IFRS 16 to arrangements that were previously not identified as lease under IAS 17 and IFRIC 4. The Bank has elected not to include initial direct costs in the measurement of the right-of-use asset for operating leases in existence at the date of initial application of IFRS 16, being 22 December 2020. At this date, the Bank has also elected to measure the right-of-use assets at an amount equal to the lease liability adjusted for prepaid/ accrued lease payments that existed at the date of transition.

Instead of performing an impairment review on the right-of-use assets at the date of initial application, the Bank has relied on its historic assessment as to whether leases were onerous immediately before the date of initial application of IFRS 16. On transition, for leases previously accounted for as operating leases with a remaining lease term of less than 12 months and for leases of low-value assets the Bank has applied the optional exemptions to not recognize right-of-use assets but to account for the lease expense on a straight-line basis over the remaining lease term. The Bank did not had any finance lease. On transition to IFRS 16 the incremental borrowing rate applied to lease liabilities recognized under IFRS 16 was 5% per annum. The Bank has benefited from the use of hindsight for determining the lease term when considering options to extend and terminate leases.

4.1.1 Leased assets

The Bank as a Lessee

For any new contracts entered into on or after 22 December 2020, the Bank considers whether a contract is, or contains a lease. A lease is defined as 'a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration'. To apply this definition the Bank assesses whether the contract meets three key evaluations which are whether:

- a) The contract contains an identified asset, which is either explicitly identified in the contract or implicitly specified by being identified at the time the asset is made available to the Bank;
- b) The Bank has the right to obtain substantially all of the economic benefits from use of the identified asset throughout the period of use, considering its rights within the defined scope of the contract; and
- c) The Bank has the right to direct the use of the identified asset throughout the period of use. The Bank assess whether it has the right to direct 'how and for what purpose' the asset is used throughout the period of use.

Measurement and recognition of leases as a lessee

At lease commencement date, the Bank recognizes a right-of-use asset and a lease liability on the balance sheet. The right-of-use asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Bank, an estimate of any costs to dismantle and remove the asset at the end of the lease, and any lease payments made in advance of the lease commencement date (net of any incentives received).

MW

BANK-E-MILLIE AFGHAN
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED ON 30 QAWS 1402 (21 DECEMBER 2023)

The Bank depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Bank also assesses the right-of-use asset for impairment when such indicators exist. At the commencement date, the Bank measures the lease liability at the present value of the lease payments unpaid at that date, discounted using the interest rate implicit in the lease if that rate is readily available or the Bank's incremental borrowing rate.

Lease payments included in the measurement of the lease liability are made up of fixed payments (including in substance fixed), variable payments based on an index or rate, amounts expected to be payable under a residual value guarantee and payments arising from options reasonably certain to be exercised.

Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments. When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero. The Bank has elected to account for short-term leases and leases of low-value assets using the practical expedients. Instead of recognizing a right-of-use asset and lease liability, the payments in relation to these are recognized as an expense in profit or loss on a straight-line basis over the lease term.

On the statement of financial position, right-of-use assets have been included in property and equipment within operating fixed assets and lease liabilities have been disclosed on the face of the statement of financial position.

Extension options for leases

When the Bank has the option to extend a lease, management uses its judgment to determine whether or not an option would be reasonably certain to be exercised. Management considers all facts and circumstances including their past practice and any cost that will be incurred to change the asset if an option to extend is not taken, to help them determine the lease term.

4.2 Cash and cash equivalents

Cash and cash equivalents include cash in hand, balance held with DAB except under required reserve account, balance in Nostro accounts, placements and highly liquid financial assets with original maturities of less than three months, which are subject to insignificant risk of changes in their fair value, and are used by the Bank in the management of its short-term commitments.

4.3 Financial assets and liabilities

Recognition

The Bank initially recognizes loans and advances to customers and deposits from customers on the date that they are originated. All other financial assets and liabilities are initially recognized on the trade date at which the Bank becomes a party to the contractual provisions of the instrument.

De-recognition

The Bank de-recognizes a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. Any interest in transferred financial assets that is created or retained by the Bank is recognized as a separate asset or liability.

The Bank de-recognizes a financial liability when its contractual obligations are discharged or cancelled or expired.

The Bank also de-recognizes certain assets when it charges off balances pertaining to the assets deemed to be uncollectible.

Mal

BANK-E-MILLIE AFGHAN
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED ON 30 QAWS 1402 (21 DECEMBER 2023)

Offsetting

Financial assets and liabilities are set off and the net amount presented in the balance sheet when, and only when, the Bank has a legal right to set off the amounts and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

Income and expenses are presented on a net basis only when permitted by the accounting standards, or for gains and losses arising from a group of similar transactions.

Amortized cost measurement

The amortized cost of a financial asset or liability is the amount at which the financial asset or liability is measured at initial recognition, minus principal repayments, plus or minus the cumulative amortization using the effective interest method of any difference between the initial amount recognized and the maturity amount, minus any reduction for impairment.

Identification of measurement of impairment

At each balance sheet date the Bank assess whether there is objective evidence that financial assets not carried at fair value through profit or loss are impaired. Financial assets are impaired when objective evidence demonstrates that a loss event has occurred after the initial recognition of the asset, and that the loss event has an impact on the future cash flows of the asset that can be estimated reliably.

The Bank considers evidence of impairment at a specific asset level and also collectively. All individually significant financial assets are assessed for specific impairment. All significant assets found not to be specifically impaired are then collectively assessed for any impairment that has been incurred but not yet identified. Assets that are not individually significant are then collectively assessed for impairment by grouping together financial assets (carried at amortized cost) with similar risk characteristics.

In determining the potential loss in specific loans, groups of loans, or in the aggregate loan portfolio, all relevant factors are considered including, but not limited to: current economic conditions, historical loss experience, delinquency trends, the effectiveness of the Bank's lending policies and collection procedures, and the timeliness and accuracy of its loan review function.

Impairment losses on assets carried at amortized cost are measured as the difference between the carrying amount of the financial assets and the present value of estimated cash flows discounted at the assets' original effective interest rate. Losses are recognized in profit or loss and reflected in an allowance account against loans and advances. Interest on the impaired asset continues to be recognized through the unwinding of the discount, (if applicable).

When a subsequent event causes the amount of impairment loss to decrease, the impairment loss is reversed through profit or loss.

4.4 Impairment of non-financial assets

The carrying amounts of the Bank's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists then the asset's recoverable amount is estimated.

An impairment loss is recognized if the carrying amount of an asset or a cash-generating unit exceeds its recoverable amount. A cash-generating unit is the smallest identifiable asset group that generates cash flows that largely are independent from other assets and groups. Impairment losses are recognized in profit or loss. Impairment losses recognized in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amount of the other assets in the unit (group of units) on a pro rata basis.

M

BANK-E-MILLIE AFGHAN
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED ON 30 QAWS 1402 (21 DECEMBER 2023)

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

Impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

4.5 Taxation

Income tax expense comprises current and deferred tax. Income tax expense is recognized in income statement except to the extent that it relates to items recognized directly in equity, if any, in which case it is recognized in equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is provided using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date.

A deferred tax asset is recognized to the extent that it is probable that future taxable profits will be available against which temporary difference can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

4.6 Foreign currency

4.6.1 Foreign currencies transactions and translations

Transactions in foreign currencies are translated to the functional currency of the Bank at exchange rates at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated to the functional currency at the exchange rate prevailing at that date, with the exchange gain or loss on translation recognized in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency shall be translated using the exchange rate at the date of transaction. Non-monetary items that are measured at fair value in a foreign currency shall be translated using the exchange rates at the date when fair value was measured. For those non monetary items for which gain or loss is recognized in other comprehensive income, the exchange gain loss arising on translation is also recognized in other comprehensive income. While, for those for non monetary items for which gain or loss is recognized in profit or loss, the exchange gain loss arising on translation is also recognized in profit or loss.

Mul

BANK-E-MILLIE AFGHAN
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED ON 30 QAWS 1402 (21 DECEMBER 2023)

4.6.2 Foreign operations

Net investment in foreign subsidiaries is translated to Afghani at the reporting date. Foreign currency differences are recognized directly in other comprehensive income.

4.7 Interest

Interest income and expense are recognized in profit or loss using the effective interest method. The effective interest rate is the rate that exactly discounts the estimated future cash payments and receipts through the expected life of the financial asset or liability to the carrying amount of the financial asset or liability. The effective interest rate is established on initial recognition of the financial asset and liability and is not revised subsequently.

The calculation of the effective interest rate includes all fees and points paid or received, transaction costs, and discounts or premiums that are an integral part of the effective interest rate. Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or liability.

Interest income and expense presented in profit or loss comprise of interest on financial assets and liabilities at amortized cost on effective interest rate basis.

4.8 Fee and commission

Fee and commission income and expenses that are integral to the effective interest rate on a financial asset or liability are included in the measurement of the effective interest rate.

Other fee and commission income, including account servicing fee, funds transfer fee and placement fee, are recognized as the related services are performed. When a loan commitment is not expected to result in the draw-down of a loan, loan commitment fee are recognized on a straight-line basis over the commitment period.

Other fee and commission expense relates mainly to transaction and service fee and funds transfer fee, which are expensed as the services are received.

4.9 Rental income

Rental income from investment property is recognized in profit or loss on accrual basis.

4.10 Dividend income

Dividend income is recognized on the date when the Bank's right to receive payment is established.

4.11 Loans and advances

Loans and advances are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and that the Bank does not intend to sell immediately or in the near term.

Loans and advances are initially recognized at fair value plus incremental direct transaction cost and subsequently measured at their amortized cost using the effective interest method less allowance for impairment.

Loans and advances classified as loss are written off as required by DAB's regulations.

All loans and advances are classified in accordance with the regulations of DAB.

4.12 Murabaha

In Murabaha transactions, the Bank purchases the goods and after taking the possession, sells them to the customers on cost plus mark-up basis either in a spot or credit transaction. Profit on Murabaha is recognized on receipt basis. Profit on Murabaha transactions for the period from the date of disbursement to the date of culmination of Murabaha is recognized immediately upon the later date.

Mal

BANK-E-MILLIE AFGHAN
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED ON 30 QAWS 1402 (21 DECEMBER 2023)

4.13 Investments

Investment in subsidiaries are initially recognized at cost, being the aggregate of fair value at the date of acquisition and any cost directly attributable to the acquisition. Investment in subsidiaries are subsequently carried at cost less accumulated impairment losses, if any. Foreign exchange difference on investment in foreign subsidiaries is recognized in equity.

Investments in associates, where the Bank has significant influence but not control, are accounted for by using the equity method of accounting. These investments are initially recognized at cost, thereafter the Company's share of the changes in the net assets of the associates are accounted for at the end of each reporting period less impairment loss, if any. Share of profit and loss of associate is accounted for in the Company's profit and loss account, whereas changes in the associate's equity which has not been recognized in the associates profit and loss account, are recognized directly in equity of the Bank. The goodwill relating to an associate arising on the acquisition of the investment is included in the carrying value of the investments.

After the application of equity method including recognizing the associates losses, the Bank determines whether it is necessary to recognize any additional impairment loss with respect to its net investment in associate by comparing the entire carrying amount including goodwill with its recoverable amount i.e. the higher of value in use or fair market price less cost to sell.

4.14 Property and equipment
Recognition and measurement

Items of property and equipment except for land and building are measured at cost less accumulated depreciation and impairment losses, if any, except for land and building which are described below separately.

Cost includes expenditures that are directly attributable to the acquisition of the asset. The cost of self-constructed assets includes cost of materials and direct labour, any other costs directly attributable to bringing the asset to a working condition for its intended use, and the cost of dismantling and removing the items and restoring the site on which they are located.

Land and building are carried under revaluation model, wherein fair value of each item of land and building is determined every year and the resulting increase / decrease in value is recorded in "surplus / (deficit) on revaluation of property and equipment" in equity. Surplus / (deficit) on revaluation of property and equipment is reported in equity, net of deferred tax and incremental depreciation. However, during the year, the central bank has issued letter to the bank, instructing the bank for suspending of revaluation of land and building till further notice. Incremental depreciation is the excess depreciation arising due to increase in carrying value of the asset due to revaluation and is recognized in profit or loss every year.

Subsequent costs

The cost of replacing part of an item of property or equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Bank and its cost can be measured reliably. The costs of the day-to-day servicing of property and equipment are recognized in profit or loss as incurred.

Depreciation

Depreciation is recognized in profit or loss on a straight line basis over the useful life of an item of property and equipment. The estimated useful lives of the items of property and equipment for the current and comparative periods are as follows:

Right of Use - Leased buildings	1- 3 Years
Land and Building	50 years
Furniture, fixtures and office equipment	5 years
Computer equipment	5 years
Vehicles	20 years
Books	20 years

Depreciation is charged on property and equipment on the basis of days the asset is being used during the year. Gains and losses (if any) on disposals are determined by comparing proceeds with the carrying amount and are taken to the profit or loss.

Depreciation methods, useful lives and residual values are reassessed at each financial year-end and adjusted if appropriate.

Md

BANK-E-MILLIE AFGHAN
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED ON 30 QAWS 1402 (21 DECEMBER 2023)

Capital work-in-progress

Capital work in progress is stated at cost less impairment losses, if any.

4.15 Intangible assets

Banking software acquired by the Bank is stated at cost less accumulated amortization and accumulated impairment losses, if any.

Subsequent expenditure on the software is capitalized only when it is expected that it will increase the future economic benefits embodied in the asset. All other expenditures are recognized in profit or loss as incurred.

Amortization is recognized in profit or loss over the useful life of the asset, using straight line method. Amortization is charged from the month the asset is available for use. Gain and loss (if any) on disposal is determined by comparing proceeds with the carrying amount and is recognized in profit or loss.

Amortization method, useful life and residual value are reviewed at each financial year-end and adjusted if appropriate.

4.16 Investment property

The Bank is carrying its investment properties at fair values determined in the year 1386 (2007). In 1393 (2014), the Bank conducted a revaluation exercise for its investment properties and submitted the same to DAB for approval. During the year ended 30 Qaws 1394 (21 December, 2015), DAB through its letter no. 4952 / 5165 dated 19 Jadi 1394 (09 January 2016), has allowed the Bank to take the revaluation impact at value reduced by 20% from the market value assessed by the valuer, for those properties only for which the Bank has Qabala (local title deed) available.

The total market value (reduced by 20%) assessed by the valuer in year 1393 (2014) for the properties, for which the Bank has Qabala available is Afs. 3,995,000,341. While the market value (reduced by 20%) assessed by the valuer in year 1393 (2014), for the properties for which the Qabala is not available with the Bank is Afs 626,428,835.

The bank has also recognized the Revaluation Gain amounting to Afn1,0589,90863.49398bn on investment properties as result of the revaluation carried out by the independent valuer during year 2020. However, the results of said revaluations were approved by DAB during 2021 in accordance with letter number 1853/1226 dated 1400/02/09.

However, the management has decided not to take the impact of revaluations of the properties for which Qabala is not available with the management. Further, due to non-availability of property wise book value, the bank has proportioned the total book value of its investment properties on the basis of proportionate market value of respective property. The management has further decided to arrange court orders for properties for which the Qabala is not available with the Bank to recognise the impact of revaluation in the books.

During the year the bank has obtained approval from the DAB allowing the bank for not carrying the revaluation investments properties, until the real estate market is stable.

4.17 Provisions

A provision is recognised if, as a result of a past event, the Bank has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a discount rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

4.18 Employee benefits

Defined benefit plan

The Bank operates a pension scheme for its current and former employees entitled to pension after normal retirement (65 years of age or 40 years of service), voluntary retirement (55 years of age and 25 years of service), disability and in case of death, their legal heirs. Pension is based on formula which takes into account the years of service, average salary and a percentage and in case of death or disability, number of salaries depending upon the years of service. Deductions are made at the rate of 8% from the monthly salary of employees and the Bank contributes an equivalent amount. Liability of the Bank for this scheme is calculated on the basis of actuarial valuation using the Projected Unit Credit Method. Actuarial gains or losses are recognised in accordance with the requirements of IAS-19 (Revised).

28 Financial assets and liabilities

Accounting classifications and fair values

IFRS 13 establishes a single source of guidance under IFRS for all fair value measurements and disclosures about fair value measurement where such measurements are required as permitted by other IFRSs. It defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. an exit price).

Financial assets which are tradable in an open market are revalued at the market prices prevailing on the statement of financial position date. The estimated fair value of all other financial assets and liabilities is considered not significantly different from book value.

The table below sets out the Bank's classification of each class of financial assets and liabilities, and their fair values.

Accounting classifications and fair values	Note	Designated at Fair Value	Amount in AFN				Fair value
			Available for sale	Held to maturity	Loans and receivables	Others	
30 Qaws 1402 (2023)

						34,170,279,806	34,170,279,806

The carrying amounts approximate their fair values as mostly the assets and liabilities have short maturities and are expected to be recovered/settled at their carrying amounts.

Financial risk management

Introduction and overview

As disclosed in Note 2.2 "Mandatory Departure", it has been disclosed that bank has not adopted the implications of IFRS 09 "Financial Instruments", thus bank disclosed the exposure to the following risks from its use of financial instruments on the basis of prior implications.

- a) Credit risk
- b) Liquidity risk
- c) Market risks
- d) Operational risks

1001

**BANK-E-MILLIE AFGHAN
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED ON 30 QAWS 1402 (21 DECEMBER 2023)**

Risk management framework

The Board of Supervisors has overall responsibility for the establishment and oversight of the Bank's risk management framework. The Board has established the Board of Management comprised of Heads of Departments, which are responsible for developing and monitoring the Bank's risk management policies. Board of Management report regularly to the Board of Supervisors on their activities.

The Bank's risk management policies are established to identify and analyze the risks faced by the Bank, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions, products and services offered. The Bank, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment, in which all employees understand their roles and obligations.

The Bank's Audit Committee is responsible for monitoring compliance with the Bank's risk management policies and procedures, and for reviewing the adequacy of the risk management framework in relation to the risks faced by the Bank. The Audit Committee is assisted in these functions by Internal Audit. Internal Audit undertakes both regular and ad-hoc reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

a) Credit risk

Credit risk is the risk of financial loss to the Bank if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Bank's loans and advances to customers, other banks and investment securities. For risk management reporting purposes, the Bank considers and consolidates all elements of credit risk exposure (such as individual obligor default risk, country and sector risk).

Management of credit risk

The Board of Management has delegated responsibility for the management of credit risk to the Bank's credit department. Head of credit department reports to the Board of Management and Credit Department is responsible for oversight of the Bank's credit risk, including:

- Formulating credit policies, covering collateral requirements, credit assessment, risk grading and reporting, documentary and legal procedures and compliance with regulatory and statutory requirements.
- Establishing the authorization structure for the approval and renewal of credit facilities.
- Reviewing and assessing credit risk. Bank's Credit department assesses all credit exposures in excess of designated limits. Renewals and reviews of facilities are subject to the same review process.
- Limiting concentrations of exposure to counterparties, for loans and advances.
- Developing and maintaining the Bank's risk grading's in order to categorize exposures according to the degree of risk of financial loss faced and to focus management on the attendant risks. The risk grading system is used in determining where impairment provisions may be required against specific credit exposures. The current risk grading framework consists of five grades reflecting varying degrees of risk of default and the availability of collateral or other credit risk mitigation. The responsibility for setting risk grades lies with the final approving executive / committee as appropriate. Risk grades are subject to regular reviews by the Management Board.
- Providing advice, guidance and specialist skills to business units to promote best practice throughout the Bank in the management of credit risk.

Each business unit is required to implement the Bank's credit policies and procedures, with credit approval authorities delegated from the Bank's Credit Committee. Each business unit has a Chief Credit Risk Officer who reports on all credit related matters to local management and the Bank's Credit Committee. Each business unit is responsible for the quality and performance of its credit portfolio and for monitoring and controlling all credit risks in its portfolios, including those subject to central approval. Regular audits of business units and the Bank's credit processes are undertaken by Internal Audit.

Maximum gross exposure to credit risk before collateral held or other credit enhancements

Credit risk exposure relating to on-balance sheet assets are as follows:

	2023 30 Qaws 1402 AFN	2022 30 Qaws 1401 AFN
Cash and cash equivalents	2,157,720,040	2,813,866,593
Short-term investments	730,534,194	907,866,238
Loans and advances	1,382,179,406	3,928,047,987
Other assets	515,136,871	464,517,429
	4,785,570,511	8,114,298,198
	289,237,808	102,557,139

Credit risk exposure relating to off-balance sheet assets are as follows:

Contingencies and Commitments

The above table represents credit exposures of the Bank at 20 December 2022 and 21 December 2023, without taking account of any collateral held or other enhancements attached. For on balance sheet assets the exposure set out above is based on net carrying amounts as reported in the statement of financial position.

Exposure of the Bank do not include balances with related parties and Da Afghanistan Bank (DAB) being the regulator.

The percentage of the maximum credit exposure in balances with cash and bank balances, Loans and advances to customers and other assets are as follows:

	21 December 2023 30 Qaws 1402 AFN	21 December 2022 30 Qaws 1401 AFN
Cash and cash equivalents	45%	35%
Short-term investments	15%	11%
Loans and advances	29%	48%
Other assets	11%	6%

Past due but not impaired loans

Past due but not impaired loans are those for which contractual interests or principal payments are past due but the Bank believes impairment is not appropriate.

Handwritten mark

**BANK-E-MILLIE AFGHAN
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED ON 30 QAWS 1402 (21 DECEMBER 2023)**

Allowances for impairment

The Bank establishes an allowance for impairment losses that represents the Bank's estimate of incurred losses on loan portfolio. The main component of this allowance is a specific loss component that relates to individually significant exposures, and a collective allowance for impairment established for groups of homogeneous assets in respect of losses that have been incurred but have not been identified on loans subject to individual assessment for impairment.

Loan Grading

All loans are classified into one of the five classification grades mentioned below for minimum provisioning amounts.

	All other Loans		Microfinance & Small Loans	
	Days past due	Percentage %	Days past due	Percentage %
Standard	1 - 30 Days	1%	0-30 Days	1%
Watch	31 - 60 Days	5%	31 - 60 Days	5%
Substandard	61 - 120 Days	25%	61 - 90 Days	25%
Doubtful	121 - 480 Days	50%	91 - 180 Days	50%
Loss	481 or past due dates	100%	181 or above	100%

Write-off policy

The Bank recognized 100% provision on loans after 480 days and keeping these on books of account for additional 06 months these loans would be written off as per Da Afghanistan bank regulations. This determination is reached after considering information such as the occurrence of significant changes in the borrower's financial position such that the borrower can no longer pay the obligation, or that proceeds from collateral will not be sufficient to pay back the entire exposure. Before allowing to written off, it is ensured that all possible avenues of recovery, inclusive of legal action are exhausted or legal action is not advisable.

Concentration of credit risks by sector

All the loans have been disbursed in geographical territory of Afghanistan. The Bank monitors concentrations of credit risk by sector. An analysis of concentrations of credit risk of loans and advances to customers at reporting date is as follows:

Concentration by sector - Carrying amount

Airline		21 December 2023	21 December 2022
Vegetable ghee and cooking oil		30 Qaws 1402	30 Qaws 1401
Manufacturer		AFN	AFN
Pharmaceuticals		1,382,179,406	3,928,047,985
Fuel suppliers		612,054,620.74	720,207,049
Food		334,358,346	330,725,899
Construction		236,995,165	320,489,786
Automobile		797,649,919	927,160,848
Trading		148,267,948	36,940,106
Others		1,468,744,933	1,503,862,245
Concentration by sector - Gross amount		216,262,398	205,934,484
		127,355,021	496,944,614
		3,941,688,351	4,541,865,032

b) Liquidity risk

Liquidity risk is the risk that the Bank will encounter difficulty in meeting obligations from its financial liabilities that are settled by delivering cash or another financial asset.

Management of liquidity risk

The Board of Supervisors ensures that the Bank has necessary tools and framework to cater the requirements of liquidity risk management and the Bank is capable to confronting uneven liquidity scenarios. Management Board is entrusted with the responsibility of managing the mismatch in maturities to ensure availability of sufficient cash flow to meet possible withdrawal of deposits, other commitment or challenges associated with sudden changes in market conditions, whilst enabling the Bank to pursue valued business opportunities.

Finance Department receives information from other business units regarding the liquidity profile of their financial assets and liabilities and details of other projected cash flows arising from projected future business. Finance Department then maintains a portfolio of short-term liquid assets to ensure that sufficient liquidity is maintained within the Bank as a whole.

The Bank relies on deposits from customers as its primary source of funding. Deposits from customers generally have shorter maturities and large portion is repayable on demand.

Broad Liquidity Ratio	
At year end	90.89%
Average for the year	88.35%
Maximum for the year	91.2%
Minimum for the year	86.04%

Exposure to liquidity risk

The key measures used by the Bank to measure the liquidity risk includes the Broad Liquidity Ratio (calculated as a percentage of Liquid Assets to Attracted Funds and desopiated off-balance sheet liabilities. Liquid assets include cash in vault, balances with DAB, demand and time deposits with banks. Attracted funds include demand and time liabilities including customers' deposits. Designated off balance sheet liabilities include Letters of Guarantee) and Quick Liquidity Ratio (calculated as a percentage of highly liquid assets to volatile liabilities. Highly liquid assets includes cash in vault, current account with DAB and demand deposits with banks. Volatile liabilities represent demand deposits from banks and other financial institutions). Liquidity risk and details are presented below.

c) Market risks

Market risk is the risk that changes in market prices, such as interest rate, equity prices, foreign exchange rates and credit spreads (not relating to changes in the obligor's / issuer's credit standing) will affect the Bank's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return on risk.

Management of market risks

To manage and control market risk a well defined limits structure is in place. These limits are reviewed, adjusted and approved periodically. Overall authority for market risk is vested in Management Board.

BANK-FATMIE AFGHAN
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED ON 30 QAWS 1402 (21 DECEMBER 2023)

Exposure to interest rate risk

The Bank's risk to which non-trading portfolios are exposed is the risk of loss from fluctuations in the future flows or fair values of financial instrument because of change in market interest rates. Interest rate risk is managed principally through monitoring interest rate gaps and by having pre-approved limits for repricing bands. Management Board is the monitoring body for compliance with these limits and is assisted by Risk Management in its day to day monitoring activities. Overall non-trading interest rate risk positions are managed by Central Treasury, which uses investment securities, advances to banks, deposits from banks to manage the overall position arising from the Bank's non-trading activities. A summary of the Bank's interest rate gap position on non-trading portfolio is as follows:

Exposure to interest rate risk	Interest rates % (p.a)	Amount in AFN					Interest Bearing Total	Non-interest bearing Total	Gross Total

Sensitivity analysis

A 10% increase in the exchange rates of USD, GBP, PKR and EUR at year end would have increased (decreased) profit or loss by the amounts shown below. This analysis is based on foreign currency exchange rate variances that the Bank considered to be reasonably possible at the end of the reporting period. The analysis assumes that all other variables, in particular interest rates, remain constant.

	21 December 2022		21 December 2022	
	30 Qaws 1401		30 Qaws 1401	
	Average rate	Reporting date spot rate	Average rate	Reporting date spot rate
USD	87.03	68.36	90.00	89.30
GBP	107.77	87.42	110.90	108.05
PKR	0.28	0.24	0.38	0.35
EUR	92.90	76.17	94.95	93.55

The following significant exchange rates were applied during the periods.

d) Operational risks

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the Bank's processes, personnel, technology and infrastructure, and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of corporate behaviour. Operational risks arise from all of the Bank's operations and are faced by all business entities.

The Bank's objective is to manage operational risk so as to balance the avoidance of financial losses and damage to the Bank's reputation with overall cost effectiveness and to avoid control procedures that restrict initiative and creativity.

The primary responsibility for the development and implementation of controls to address operational risk is assigned to Head of Departments. This responsibility is supported by the development of overall Bank standards for the management of operational risk in the following areas:

- Requirements for appropriate segregation of duties, including the independent authorization of transactions.
- Requirements for the reconciliation and monitoring of transactions.
- Compliance with regulatory and other legal requirements.
- Documentation of controls and procedures.
- Requirements for the periodic assessment of operational risks faced, and the adequacy of controls and procedures to address the risks identified.
- Requirements for the reporting of operational losses and proposed remedial action.
- Development of contingency plans.
- Training and professional development.
- Ethical and business standards.
- Risk mitigation, including insurance where this is effective.

Compliance with the Bank standards is supported by a programmed of periodic reviews undertaken by Internal Audit. The results of Internal Audit reviews are discussed with the management of the department to which they relate, with summaries submitted to the Audit Committee and Chief Executive Officer of the Bank.

29 Capital management

Regulatory capital

DAB sets and monitors capital requirements for the Bank. The Bank is required to maintain at all times the paid up capital plus reserves in excess of Afs 1,000 million and regulatory capital to be 12% of the risk weighted assets. The capital adequacy of the Bank is assessed in two tiers as per regulations of the DAB.

- Tier 1 or core capital, consisting of the highest quality capital elements that fully meet all the essential characteristics of capital; to be 6% of risk weighted assets.

- Tier 2 or supplementary capital, which includes other instruments which, to a varying degree, fall short of the quality of Tier 1 capital, but nonetheless contribute to the overall strength of a bank as a going concern.

BANK-E-MILLIE AFGHAN
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED ON 30 QAWS 1402 (21 DECEMBER 2023)

30 Prior year adjustment

The prior year adjustment relates to the bank's identification of an investment property located in the Serahee Alauddin Kabul city, the discovered property is measured 1,266 Square meter as per the independent expert valuation report. This property had been excluded from the bank's accounting records in previous years due to the absence of ownership documentation with the bank. During the year, the bank has successfully fulfilled all the necessary legal requirements for the ownership title deeds and valuation. Consequently, the financial statements of the bank have been adjusted accordingly with the following prior year adjustments:

	Balance sheet	Equity
	Investment properties AFN	Retained Earnings AFN
The balance prior to correction adjustment, as of 30 Qaws 1400 (December 21, 2021), was:	5,724,405,630	7,039,911,573
<i>The accounting entry for the correction of omission is as follows:</i>		
Debit	89,702,144	
Credit		89,702,144
Balances as at 30 Qaws 1400 (22 December 2021)- Restated	5,814,107,774	7,129,613,717
Balance C/F as at 01 Jaddi 1400 (22 December 2021)	5,814,107,774	7,129,613,717

31 Reclassifications

Corresponding figures have been re-arranged and re-classified where necessary for more appropriate presentation of transactions and events for the purpose of comparison.
